Education __

The University of Texas at Austin

Austin, Texas

Ph.D. IN ELECTRICAL AND COMPUTER ENGINEERING

Aug. 2023 - Present

- Advisor: Dr. Hao Zhu
- Research Interest: Risk-aware Transfer in Reinforcement Learning, Physics-aware Supervised Learning, Large Language Model Alignment
- Relevant Courses: Applied Stochastic Processes, Reinforcement Learning, Learning-based Optimal Control, Statistical Machine Learning, Generative AI, Applied Machine Learning, Convex Optimization, Energy Optimization and Operation

American University of Beirut

Beirut, Lebanon

Aug. 2019 - Jun. 2023

B.Eng. in Electrical and Computer Engineering

- GPA: 4.25/4.00
- Focus Area: Power and Energy Systems
- Minor in Mathematics
- Final Year Project: Optimal Power Flow via Machine Learning (Advisor: Dr. Rabih Jabr)
- Research Project: Microgrid Sizing using Ordinal Optimization (Advisor: Dr. Sami Karaki)
- Relevant Graduate Courses: Power System Planning, Renewable Electric Energy, Advanced Optimization

Experience_

Los Alamos National Laboratory - T-5 Applied Mathematics and Plasma Physics Group

Los Alamos, NM

GRADUATE RESEARCH ASSISTANSHIP (GRA) - ADVISOR: DR. RUSSELL BENT

May. 2025 - Aug. 2025

- · Continued research on the verification of neural networks in physical and safety-critical systems
- Extended and tested algorithms for determining large verifiable input regions of neural networks

Los Alamos National Laboratory - T-5 Applied Mathematics and Plasma Physics Group

Los Alamos, NM

GRADUATE RESEARCH ASSISTANTSHIP (GRA) - MENTORS: DR. WENTING LI, DR. BRIAN BELL

Jun. 2024 - Aug. 2024

- Worked on the verification of neural networks in physical and safety-critical systems
- Developed two algorithms for determining large verifiable input regions of neural networks

University of Connecticut - Center for Clean Energy Engineering - PEARL Lab

Storrs, CT

RESEARCH INTERNSHIP - ADVISOR: DR. ALI BAZZI

Jun. 2022 - Aug. 2022

- Worked with Ward Leonard, a leading industrial motor manufacturing company
- Developed a fault diagnosis algorithm for power electronic inverters using combinational logic
- Optimized and constructed the inverter circuit for high-power testing using mixed-integer linear programming

OTB ConsultBeirut, LebanonENERGY RESEARCHMay 2022 - Jun. 2022

• Collaborated with UNDP for conducting site reviews and surveys for the installation of solar solutions in Beirut

- Reviewed and developed technical notes on standards related to solar photovoltaics (PV)
- Researched relevant solar energy installations for a project in Iraq
- Researched plastic recycling mechanisms and applications

Swiss Federal Institute of Technology Lausanne (EPFL)

TECH4IMPACT SUMMER SCHOOL

Lausanne, Switzerland Jun. 2021 - Sep. 2021

- Selected among 40 students from around the world
- Worked in a team of 4 students under the guidance of a renowned NGO
- Challenge: energy access for organizations in displacement settings
- Carried research on the topic and interviews with key experts in the field
- Developed the solution of Smart Solar Mini-Grids controlled by an algorithm and financed by Power Purchase Agreements
- Achievement: pitched this solution at a public event, and the team won the "Best Pitch" award out of 10 groups

American University of Beirut (AUB)

Beirut, Lebanon

STUDENTS FOR SUSTAINABLE ENERGY FOR ALL (SSEA) CLUB

2021 - 2023

- Supervised the student-led initiative "Sustainable Buildings on Campus" responsible for energy projects on campus
- Designed solar-powered benches for outdoor device charging
- Developed an air-conditioning control system for classes and faculty offices
- Analyzed the feasibility of installing LED lamps in the engineering building

Awards & Honors _____

2024	Best Graduate Presentation Award at NAPS 2024			
2023 - Present	Cockrell School of Engineering Fellowship			
2023	Mohamad Ali Safieddine Award for Academic Excellence for ranking first across the AUB Maroun Semaan Faculty of Engineering and Architecture			
2023	ECE Distinguished Graduate Award for ranking first among ECE graduates			
2023	Exceptional ECE Final Year Project Award Power and Energy Systems			
2021	Best Pitch Award EPFL Tech4Impact Summer School			
2019 - 2023	Dean's Honor List AUB Maroun Faculty of Engineering and Architecture - every given semester
